---

## Professional Summary

Results-driven Frontend Software Engineer with proven experience in developing, optimizing, and scaling e-commerce web applications. Specialized in JavaScript frameworks and modern frontend technologies to deliver seamless user experiences and high-performance solutions. Experienced in leading migration processes, collaborating with cross-functional teams, and mentoring junior developers. Passionate about continuous learning, innovation, and driving business growth through high-quality software solutions.

---

## Professional Experience

### **Ssr Frontend Engineer** — *Mercado Libre*

*April 2023 – March 2024 | Santiago, Chile*

- Improved and maintained high-traffic admin dashboard used by sellers to manage promotions and advertising campaigns, enhancing performance and usability.
- Led planning and execution of system migration to scalable and modern technologies, reducing technical debt and improving system reliability.
- Optimized critical code sections, improving load time and reducing errors by 15%.
- Mentored junior developers, enhancing team productivity and code quality.

### **Full Stack Developer** — *Falabella Retail*

*January 2022 – March 2023 | Santiago, Chile*

- Developed and deployed a mobile digital assistant for in-store customers, increasing customer satisfaction and engagement by providing real-time product information.
- Built dynamic and responsive user interfaces, collaborating closely with UX/UI designers to improve user experience.
- Integrated APIs and backend services, ensuring seamless data flow and system reliability.

- Identified and resolved performance bottlenecks, improving app response time by 20%.

### **Junior Fullstack Developer — Ripley**

*October 2020 – December 2021 | Santiago, Chile*

- Participated in the development of a custom e-commerce management platform, enabling the business to autonomously manage product listings, promotions, and orders.
- Contributed to key functionalities, including product catalog and inventory management modules.
- Collaborated in agile teams, participating in daily stand-ups, sprint planning, and code reviews.

### **Frontend developer — Rescatelife Ltda**

*May 2018 – Ago 2020 | Santiago, Chile*

- Managed and maintained the company's website, ensuring optimal performance and user experience.
- Developed new features based on business requirements.
- Identified, debugged, and resolved issues to maintain site stability.
- Implemented enhancements to improve functionality and usability.
- Collaborated with stakeholders to align technical solutions with business needs.

---
